## Objective

Highly skilled Full Stack Developer with 3+ years of hands-on experience in web development. Proficient in HTML, CSS, JavaScript, TypeScript, Bootstrap, Tailwind CSS, Express, Mongoose, Prisma, MongoDB, PostgreSQL, Firebase, React, Redux, Next.js, GraphQL, vitest, and Github. Adept at developing responsive and dynamic web applications. Passionate about learning and implementing the latest technologies to deliver innovative solutions. Seeking opportunities to leverage expertise in a dynamic team environment to drive impactful projects forward.

## Skills And Technologies

**Expertise:** HTML, CSS, javascript, typescript, bootstrap, Tailwind, react, redux, next JS, express, mongoose, prisma, mongoDB, postgresSQL, Firebase, stripe, sslcommerce, tanstackQuery, rtkQuery Axios, WordPress, and more.

**Comfortable:** docker, aws, GraphQL, vitest

**Familiar:** reactNative

**Tools:** vs code, Figma, Photoshop, Illustrator, chat Gpt, dev tools, netlify, firebase, vercel, npm.

## Projects:

### 1. Florist

[Live Website Link](#) || [Client-side-repo](#) || [Server-side-repo](#)

- **Authentication:** JWT-based secure login for Managers and Sellers
- **Flower Management:** CRUD operations, robust filtering.
- **Sales Management:** Product sales with automatic inventory updates..
- **UI Features:** Real-time updates, efficient CRUD with RTK Query.
- **State Management:** Redux for consistent state.
- **Bulk Delete:** Efficient inventory management.
- **Coupon & Discount:** Customer coupons, manager-created codes.

**Technologies:** TypeScript, React, Redux, Redux Toolkit Query, Ant Design, Zod, React hook Form, Express, Mongoose, JSON web token, Tailwind, npm packages

### 2. Blood Bucket

[Live Website Link](#) || [Client-side-repo](#) || [Server-side-repo](#)

- **Authentication:** JWT-based secure login for users and admin
- **Search Donors:** Search and filter blood donors by blood type, location, and availability.
- **Donor Profiles:** View detailed donor profiles with relevant information.
- **Request Blood:** Initiate blood donation requests with necessary details.
- **Admin Dashboard:** Manage user accounts, approve/reject blood requests, and oversee site activity.
- **User Profile Management:** Efficient inventory management. Edit profile information, view blood requests made/received, and manage donation status.

**Technologies:** TypeScript, Next.js, Redux, MaterialUI, Zod, React hook Form, Express, prisma, JSON web token, npm packages

## Education

**National University, Bangladesh**

Master of Arts (M.A) in Islamic History and culture. passed in(2023)

## Courses

Web development course. **LEDP IOT 5** Passed in (2020)

Complete web development course. **Programming Hero** Passed in (2023)

Apollo Level - 2 web development . **Programming Hero** Passed in (2024)
