## Skills And Technologies

**Language:** TypeScript, JavaScript

**FrontEnd:** HTML, CSS, Tailwind CSS, FramerMotion, React Three Fiber, Bootstrap, React.js, React Native(Expo), React Native Paper, Next.js, Redux, UI Libraries, Axios, TanStack Query.

**Backend:** Node.js, Express.js, Mongoose, Prisma, GraphQL, Zod, Bcrypt, AWS.

**Database:** MongoDB, PostgreSQL, Firebase, SQL Database.

**Test:** Vitest, jest, React Testing Library.

**Tools:** Vs Code, Figma, Photoshop, Illustrator, chatGpt, dev tools, Netlify, Firebase, vercel, npm, Docker.

## Interpersonal Skills

- **Time Management:** Efficient in prioritizing tasks and meeting deadlines while handling multiple projects.
- **Leadership:** Capable of guiding teams, delegating effectively, and fostering collaboration.
- **Communication:** Clear and concise in expressing ideas, with strong listening skills for better teamwork.
- **Adaptability:** Quick to adjust to changing situations and eager to learn new skills.

## Projects:

### Quick Cash

[Live Website Link](#) || [Client-side-repo](#) || [Server-side-repo](#)

A full-stack web app inspired by bKash/Nagad, providing secure digital transactions with role-based access for Users, Agents, and Admin.

- **User:** Register, send money, cash-in/out, view balance & transaction history.
- **Agent:** Approve cash-in/out, request balance/withdrawals, earn commissions.
- **Admin:** Manage users/agents, approve requests, monitor total system balance.
- **Secure Auth:** JWT-based login, hashed PIN, one-device login policy.
- **Transaction System:** Real-time balance updates, transaction logs, and unique transaction IDs.

**Technologies:** TypeScript, Next.js, Redux, ShadcnUI, ReactPdf, React Three Fiber, framerMotion, Zod, React hook Form, Express, mongoose, JWT, npm packages

### Blood Bucket

[Live Website Link](#) || [Client-side-repo](#) || [Server-side-repo](#)

Blood-Bucket is a full-stack web app that connects blood donors with recipients. Users can create profiles, search for donors by blood group and location, and request or offer blood donations.

- **Donor Profiles:** View detailed donor profiles with relevant information.
- **Request Blood:** Initiate blood donation requests with necessary details.
- **User Profile Management:** Efficient inventory management. Edit profile information, view blood requests made/received, and manage donation status.

**Technologies:** TypeScript, Next.js, Redux, MaterialUI, Zod, React hook Form, Express, prisma, JSON web token, npm packages

### Florist

[Live Website Link](#) || [Client-side-repo](#) || [Server-side-repo](#)

florist is a Flower management dashboard for handling sales, products, and user profiles, featuring tools for sales tracking, product management, and user authentication.

- **Flower Management:** CRUD operations, robust filtering.
- **Sales Management:** Product sales with automatic inventory updates.
- **UI Features:** Real-time updates, efficient CRUD with RTK Query.
- **Coupon & Discount:** Customer coupons, manager-created codes.

**Technologies:** TypeScript, React, Redux, Redux Toolkit Query, Ant Design, Zod, React hook Form, Express, Mongoose, JSON web token, Tailwind, npm packages

## Education

### National University, Bangladesh

Master of Arts (M.A) in Islamic History and culture.

Dec 2021 - May 2023

## Courses

Next Level Web development . **Programming Hero** Passed in

[certificate\\_](#)

Nov 2023 - July 2024

Complete Web Development Course With Jhankar Mahub. **Programming Hero**

[Certificate](#)

Jan 2023 - Jun 2023

Web development course. **LEDP IOT 5**

[certificate](#)

Jan 2020 - July 2020
